HANDS-ON, HEARTFELT

A relaxed creative enrichment and community connection event

THE MUDDY CANVAS
CREATIVE SESSIONS

Designed to complement the pace and needs of assisted living and active adult communities, this guided pottery experience offers a relaxed, hands-on activity that supports creativity and social connection. Participants are encouraged to engage at their own level — whether actively creating or simply enjoying the shared experience. After firing, finished pieces are returned later for presentation.

What makes this different?

Unlike some enrichment activities, pottery is tactile, functional, and process-driven. Participants create a usable ceramic piece in a guided, supportive environment, building a sense of accomplishment and a tangible reminder of the shared experience. Projects and instruction can be adapted to accommodate a range of mobility levels, allowing participants to work at their own pace with simple tools, flexible seating, and support as needed.

Creative Sessions: PAINT, is a great starting point for first-time events

- *90-120 minute hosted class*
- *$50–70 per guest, depending on selected form*
- *Guided instruction is designed to encourage personal expression and accommodate mobility needs*
- *Pre-made ceramic pieces and food-safe glazes are provided*
  - *Introductory pieces typically include a decor-style item, spoon rest, or a seasonal item (such as an ornament).*

After a successful pilot event, there are opportunities to evolve the programming by offering different pottery forms, more hands-on experiences, limited multi-session workshops, or curated private events for date nights or group celebrations, encouraging guests to return multiple times.

Thank you for considering this as a potential addition to your event lineup.

I'm happy to answer any questions about logistics, capacity, or scheduling, or to discuss customizing the experience to best fit your space and residents.
